Scottish Church College

Sharing the same belief with the likes of Raja Ram Mohan Roy and Sir Henry Lawrence, and inspired by the General Assembly of the Church of Scotland, Rev. Alexander Duff sowed the seeds for the institution that we know today as Scottish Church College. Established in 1830, Scottish Church College has been a constant pillar of education and a seat of culture in the City of Joy.

The institute celebrates youth and instills a sense of autonomy in every student; by allowing them to express and by providing a platform which can only inspire to reach higher. To put it simply, the college teaches its students to be what our motto stands for, “Nec Tamen Consumebatur” : the bush burns, but is never consumed.

INNOVARIUM

Innovarium is the flagship technical fest of the Department of Computer Science, crafted to ignite innovation, inspire collaboration, and celebrate technological brilliance. Bringing together bright minds from colleges across the region, Innovarium offers a dynamic platform for students to showcase their skills in domains like coding, gaming, cybersecurity, AI, and more.

The heart of Innovarium lies in its spirit of healthy competition and creative expression. With a range of events such as gaming tournaments, tech quizzes, coding sprints, and innovation showcases, participants are encouraged to push boundaries and challenge themselves. Each event is thoughtfully curated to not only test technical expertise but also build teamwork, critical thinking, and problem-solving skills in a fun and collaborative environment.

This being the second edition of Innovarium, the excitement is palpable. The students and the faculty have come together to craft an event that sets a new standard in technical fests. We invite you to join us participate, contribute, and immerse yourself in the world of innovation.
